8th February 2022

Dear Parents / Carers,

After a mixed start to the term with illness and absence we are now beginning to see the school return to its usual happy and busy place!

Thank you everyone for supporting us through testing your children and keeping in touch. It has made all the difference in the management of the situation.

As Spring is showing signs of activity the school and Friends and Family have been organising some dates for the diary.

Dates for your diary are as follows;

We welcome two engineers into school from Siemens, Goole, one of whom is the Siemens boss himself, Finbarr Dowling. This is an exciting project for us and we look forward to sharing the outcomes with you later in the term. Who knows it may result in another opportunity for us to feature on Sky News!!! This project is the main project of the term involving the whole school.

Bags to School

Thank you for your amazing support with our Bags to School collection, we raised a fabulous £104 for school funds.

Friends and Family

Friends and Family are a small but passionately dedicated group of parents who organise events such as many of the above events to raise funds. Any funds raised are used to buy extra equipment or provide funds to subsidise school out goings such as bus hire, theatre tickets and musicians into school.

Your generous support of all these events has made a difference to many children over the years. Recently Friends and Family have provided the children with a substantial amount of new play time equipment. Thank you from myself and the children.

If you are interested in joining Friends and Family we meet regularly in The Living Library and share ideas. Contact the school office for all the details. You would be very welcome to join us.

I will write to you again soon with further updates and events.

Yours sincerely,
